Dear Mr. Rodriguez:

This letter is in response to your petition dated April 12, 1983 and amended April 18, 1983, requesting that the Nuclear Regulatory Commission order Public Service Electric and Gas Company to show cause why it should not be restrained from restarting its Salem facilities following the reactor circuit-trip breakers failures of February 22 and 25, 1983 at the Salem Unit 1 Station. Your petition was considered pursuant to Section 2.206 of the Commission's regulations.

*56-6

For the reasons stated in the enclosed "Director's Decision under 10 CFR 2.206," the petition has been denied.

A copy of this decision will be filed with the Secretary for the Commission's review in accordance with 10 CFR 2.206(c). As provided in 10 CFR 2.206(c), this decision will become the final action of the Commission in twenty-five (25) days, unless the Commission determines to review the decision within that time.

I have also enclosed a copy of a notice that is being filed with the Office of the Federal Register for publication.

Sincerely,
