RE: Response to additional information required to amend license

To Whom It May Concern: Please see the original questions and answers that follow below. Do not hesitate to contact me with any further questions. For purposes of this letter, I am utilizing the acronym of **NRRON Inc.** when referencing **Northeast Regional Radiation Oncology Network, Inc.**

- 1. Please provide a clear description of the transaction, including the identity and the technical and financial qualifications of the proposed transferee.** On October 1, 2016, two of the non-profit Member owners of Northeast Regional Radiation Oncology Network, Inc. (Manchester Memorial Hospital and Rockville General Hospital) were acquired by Prospect Medical Holdings, Inc. In compliance with CT statutes, which prevented transfers of ownership for this non stock corporation, NRRON Inc., the entity was restructured as NRRON, LLC. While NRRON LLC is a new company with a new tax ID, all the assets and liabilities were transferred to the new company and the same percentage of ownership/membership interests transferred to each respective hospital. All services, policies and procedures, Member Representatives, Board of Directors, equipment, and staff stayed exactly the same.
- 2. Describe any planned changes in the organization, including but not limited to, transfer of stocks or assets and mergers, change in members on Board of Directors, etc. Provide the new licensee name, mailing address, and contact information, including phone numbers. Clearly identify when the amendment request is due to a name change only.** The new company name is NRRON LLC. No other changes were made except that two Members, Rockville General Hospital and Manchester Memorial Hospital, were acquired by Prospect Medical Holdings, Inc. as described in question 1. They continue to maintain their same percentage membership interest and designated Member representatives. The phone number of 860-533-4000 and address of 100 Haynes Street, Manchester, CT 06040 remain the same. The name change occurred on 10/1/16.
- 3. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel and any changes in the training program. No changes made or required. All personnel remained the same.**

ENCLOSURE MATERIAL-01

4. **Describe any changes in the location, facilities, equipment, radiation safety program, use, possession, waste management, or other procedures that relate to the licensed program. No changes made or required. All locations, facilities, equipment, safety programs, use, possession, waste mgmt., or other procedures remained exactly the same.**
5. **Describe the status of the licensee's facilities, equipment, and radiation safety program, including any known contamination and whether decontamination will occur prior to transfer. Include the status of calibrations, leak tests, area surveys, wipe tests, training, quality control, and related records. No changes made or required. No contaminations. Decontamination is not applicable. All calibrations, leak tests, surveys, training, quality control, etc... are unchanged and continue to be maintained by same staff with same equipment.**
6. **Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity. Not applicable: all records, equipment and surveys remain the same and available on site.**
7. **Confirm that both transferor and transferee agree to transferring control of the licensed material and activity, and the conditions of transfer, and that the transferee has been made aware of any open inspection items and its responsibility for possible resulting enforcement actions. Both transferor and transferee agree and are made aware: they are the same Member Representatives, Board of Directors, management staff and hospital owners.**
8. **Confirm that the transferee will abide by all constraints, conditions, requirements, representations, and commitments of the transferor or that the transferee will submit complete description of the proposed licensed program. The transferee confirms and abides by all constraints, conditions, requirements, and commitments of the transferor. The program has not changed.**
9. **Please submit pre- and post- transaction organizational charts showing the corporate structure of the license holder and its parent companies. Attached**
10. **Please indicate the date that the transaction occurred. 10/1/16**

Sincerely,

Daniel J. DelGallo
