Docket No. 50-245

50-336

Director of Nuclear Reactor Regulation
Attn: Mr. G. Lear, Chief
Operating Reactors Branch #3
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Gentlemen:

Millstone Nuclear Power Station, Units No. 1 and 2
Amendment to Proposed Revision of Environmental Technical Specifications

Northeast Nuclear Energy Company proposed in a letter to the Director of Nuclear Reactor Regulation dated April 19, 1976 to incorporate certain changes to the Millstone Unit No. 1 (License No. DPR-21) and Unit No. 2 (License No. DPR-65) Environmental Technical Specifications (ETS). The licensee herein wishes to provide the Director additional information to assist in this action.

Specifically, NNECo proposed to delete ETS section 4.3, Lobster Habitat Sampling. As noted in Section 4.3 of the Annual Environmental Operating Report Part A: Nonradiological Report, August 1, 1975--December 31, 1975, Northeast Nuclear Energy Company Millstone Nuclear Power Station, lobster habitat sampling as a means of capturing lobsters for a tag-recapture type of population estimate was replaced in January 1976 with an intensive pot program intended to significantly increase the number of captures and recaptures. A final report on lobster habitat sampling was prepared and is found in Part 1 section D of the Annual Report Ecological and Hydrographic Studies 1975, Millstone Nuclear Power Station. The latter report was appended to the Annual Environmental Operating Report and is intended to satisfy certain ETS requirements by reference.

In addition, NNECo proposed to delete ETS section 4.5, Intake Velocity Profile Measurements. A final report on this effort was submitted to Mr. James P. O'Reilly, Director, Office of Inspection and Enforcement in a letter dated February 27, 1976. A copy of the report is also contained in section 4.5 of the Annual Environmental Operating Report Part A: Nonradiological, August 1, 1975--December 31, 1976, Northeast Nuclear Energy Company Millstone Nuclear Power Station.

If we can be of any further assistance, please let us know.

Very truly yours,

5165

NORTHEAST NUCLEAR ENERGY COMPANY

D. C. Switzer
President

STATE OF CONNECTICUT)

COUNTY OF HARTFORD)

) ss. Berlin

May 21, 1976

Then personally appeared before me D. C. Switzer, who being duly sworn, did state that he is President of Northeast Nuclear Energy Company, a Licensee herein, that he is authorized to execute and file the foregoing information in the name and on behalf of the Licensees herein and that the statements contained in said information are true and correct to the best of his knowledge and belief.
