Director of Nuclear Reactor Regulation
Attn: Mr. Victor Stello, Director

Dear Mr. Stello:

Re: St. Lucie Unit No. 1
Docket No. 50-335
Proposed Amendment to
Facility Operating License DPR-67

In reviewing the requested technical specification amendment which was submitted to you on March 10, 1978 (L-78-87), it was noted by our staff that a snubber had been inadvertently omitted from deletion from Table 3.7-2. On page 3/4 7-36, FPL Location Number 113 should have been deleted. This hydraulic snubber will be replaced by a 3 kip mechanical snubber during the present refueling outage.

It is requested that our submittal of March 10 be amended by including FPL Location No. 113 among those to be deleted.

Very truly yours,

Robert E. Uhrig
Vice President
