Mr. Richard A. Uderitz, Vice President -  
Nuclear  
Public Service Electric and Gas Company  
Post Office Box 236  
Hancocks Bridge, New Jersey 08038

Dear Mr. Uderitz:

We have completed our review of your revised report on rod exchange methodology. Our Safety Evaluation Report is enclosed. We find that the revised method is acceptable for the Salem Nuclear Generating Station, Units 1 and 2 providing an additional criterion is placed on the reference bank. The new criterion was discussed with your staff who agreed that the criterion, at + 10% review criterion on the reference bank, would be added.

Sincerely,

Steven A. Varga, Chief  
Operating Reactors Branch #1  
Division of Licensing

Enclosure:  
As stated
