LICENSE AMENDMENT FEE CORRECTION  
UNIT NOS. 1 AND 2  
SALEM GENERATING STATION  
DOCKET NOS. 50-272 AND 50-311

Dear Mr. Miller:

Pursuant to your letter dated August 20, 1984, which described a combination of fees payable and refunds due, we hereby remit the sum of \$500.00 to satisfy the fee differential due to your office.

Sincerely,

E. A. Liden  
Manager - Nuclear  
Licensing and Regulation

AUG 20 1984

Docket Nos. 50-272  
and 50-311

Public Service Electric and Gas Company  
ATTN: Mr. R. A. Uderitz  
Vice President - Nuclear  
Post Office Box 236  
Hancocks Bridge, New Jersey 08038

Gentlemen:

We have received a copy of the following applications which were filed with the Office of Nuclear Reactor Regulation (ONRR) for review for the Salem Nuclear Generating Station:

1. A February 9, 1979 application, as revised March 10, 1980 and April 29, 1981, which transmitted your inservice testing program and requested relief from certain testing requirements pursuant to 10 CFR 50.55a(g) for Unit No. 1. Fees pursuant to 10 CFR 170.22 of the March 23, 1978 regulations were not remitted with this request.
2. An August 10, 1981 application for Technical Specifications relating to (a) process and effluent monitors, (b) mechanical and hydraulic snubbers, and (c) rod position indicator for Unit Nos. 1 and 2. A Class IV fee (\$12,300) was remitted with your request pursuant to 10 CFR 170.22 of the March 23, 1978 regulations.

Based on information provided by the ONRR staff as the result of their final reviews of your requests, it has been determined that:

1. A Class III fee (\$4,000) is appropriate for Item 1 since the review involved consideration of a single safety issue. This application was approved by letter and Safety Evaluation dated April 12, 1983.
2. Two Class III fees (\$8,000) and two Class I fees (\$800) are appropriate for (a) and (b) of Item 2 since the review involved consideration of two single safety issues and a duplicate unit fee for each issue. Therefore, a refund of \$3,500 is appropriate for this application. This application was approved by Amendment Nos. 40 and 5 on February 2, 1982 and Amendment Nos. 48 and 13 on October 18, 1982.

PDR

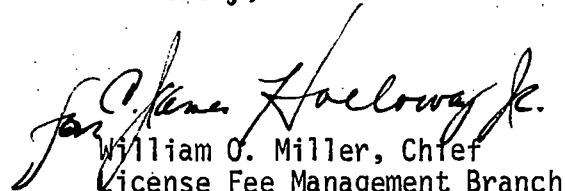

AUG 20 1984

Item 2(c) of your August 10 application was withdrawn by letter dated November 14, 1983. Under the provisions of 10 CFR 170.12(a), the USNRC may retain fees regardless of the disposition of an application. However, for applications filed prior to June 20, 1984, it is NRC policy not to retain fees if no review had commenced prior to withdrawal of a particular application. On this basis, it has been determined that an exemption, pursuant to 10 CFR 170.11(b), from the fee requirements is authorized by law and such exemption is otherwise in the public interest and is hereby granted for Item 2(c) of your August 10 application.

Since in one instance \$4,000 is due the USNRC and in the other \$3,500 is due your Company, we are applying the \$3,500 refund due your Company for Item 2 to the \$4,000 due the USNRC for Item 1. It is requested that you remit the additional sum of \$500 to this office to complete the fee due for your February 9, 1979 application. We hope this transaction is acceptable to your Company.

For your information, a brief discussion of fees for applications for license amendments filed before and after June 20, 1984, is contained in Enclosure 1 to this letter. If there are questions on fees, call us on 301-492-7225.

Sincerely,

  
William O. Miller, Chief  
License Fee Management Branch  
Office of Administration
