

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

December 17, 1985

Docket No. 50-272

Mr. C. A. McNeill, Jr.  
Vice President - Nuclear  
Public Service Electric and Gas Co.  
Mail Code T15A, Post Office Box 570  
Hancocks Bridge, New Jersey 08038

Dear Mr. McNeill:

The Salem Unit No. 1 has been selected by the International Atomic Energy Agency (IAEA) under Article 39(b) of the US/IAEA Safeguards Agreement for the application of IAEA safeguards.

This notification is the second of the two-part selection process arranged with the IAEA to enable the U.S. to implement IAEA safeguards at a selected facility within the 90-day period specified in the US/IAEA Agreement. Please refer to the U.S. Nuclear Regulatory Commission (NRC) letter dated September 5, 1985 regarding this subject. The effective date of this notification is January 1, 1986.

Title 10 CFR Part 75 will be utilized to effect the implementation of this program. Installation information of the type described in §75.14 has been provided to the NRC.

Upon receipt of this notification, an initial inventory report and subsequent accounting reports are required by §§75.32 and 75.33. The initial inventory report is to be submitted on DOE/NRC Form 742C, Physical Inventory Listing (PIL). The PIL may be based on book values and will start a new material balance period as of your initial inventory reporting date, January 31, 1986. The completed PIL should be dispatched to the Commission by February 28, 1986.

Utilizing the installation information provided under §75.11, the United States and the IAEA will negotiate a "Facility Attachment" for your facility which will detail how IAEA safeguards will be applied there.

To the extent indicated in §75.8(e), you will be provided an opportunity to participate in the preparation of the facility attachment. The provisions

of the Agreement and the "Facility Attachment" will be implemented in your facility through the issuance of a license amendment or other appropriate means.

With your cooperation, we hope to meet the U.S. obligations under the US/IAEA Safeguards Agreement as efficiently and smoothly as possible.

Sincerely,

Thomas M. Novak, Acting Director  
Division of PWR Licensing-A  
Office of Nuclear Reactor Regulation
