Re: Supplemental to NRC-2018-000308 Freedom of Information Act Request

Dear Madam or Sir:

This request is further to FOIA request NRC-2018-000308, to which the NRC responded on March 1, 2018. The single document provided in response to that request is only a portion of the records sought. That report was already a public document and available. To facilitate further specificity of the request, please consider this a separate FOIA request.

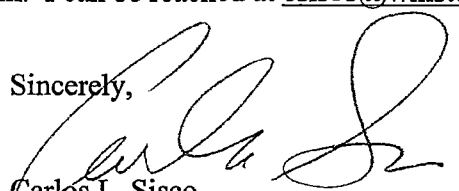

Under NRC Contract No. NRC-03-79-118, please provide the following as related to Environmental Qualification (EQ) review tasks:

1. A list of all Franklin Research Center, and Idaho National Laboratory deliverables.
2. Monthly or other periodic project status reports, prepared by Franklin Research Center, and Idaho National Laboratory, and submitted to the NRC.

Each of these items will help further refine the identification of the materials of interest. These should all be public records, as they set forth the materials that were the bases for reviews of licensee EQ programs. The ultimate guidance for those reviews is broadly reflected in the Implementation Guidance produced in response to the initial FOIA. However, that document does not reflect with specificity the materials used in its implementation.

I agree to pay such fees as required under 10 C.F.R. 9.33, et seq. without further authorization; however, please call if the fees, and copying costs exceed \$500.00. I prefer that the documents be produced in electronic form. I can be reached at csisco@winston.com or 202-282-5907.

Sincerely,

Carlos L. Sisco
Senior Paralegal
