

**Summary of Changes to One Form that Implements
the Wolf Creek Generating Station (WCGS)
Radiological Emergency Response Plan (RERP)**

1. Form APF 06-002-01, "EMERGENCY ACTION LEVELS," Rev. 17B

The page count of Form APF 06-002-01 was incorrect due to two extra page breaks in the form. This revision removes the extra page breaks on pages 9 and 27 which corrects the total page count to 37. These changes are administrative and editorial in nature. Therefore, these changes do not decrease the effectiveness of the WCGS RERP.
