

OCONEE NUCLEAR STATION

EMERGENCY PLAN

10 CFR 50.54 (g) SUMMARY OF CHANGES

ATTACHMENT 1

The following changes were made to the Oconee Nuclear Station Emergency Plan:

- Section D and Section J have editorial changes that removed extra blank pages and spaces.
- Section D's title was corrected to match the Table of Contents.
- Section H was changed by removing portable survey instrument ESP-2 and chair body burden analysis due to fleet standardization and obsolescence.
- Section P and Appendix 6 were changed by deleting the table for distribution of the Emergency Plan and procedures to reference the distribution list maintained in the Electronic Document Management System (EDMS).
- Appendix 3 was changed to revise siren capability to remove the use of sirens by the counties for emergencies not related to Oconee Nuclear Site.
