Docket Nos. 50-272/311

Mr. Steven E. Miltenberger  
Vice President and Chief Nuclear  
Officer  
Public Service Electric & Gas Company  
Post Office Box 236  
Hancocks Bridge, New Jersey 08038

Dear Mr. Miltenberger:

SUBJECT: SAFETY EVALUATION REPORT FOR GENERIC LETTER 83-28, ITEM 2.2 (PART 1), EQUIPMENT CLASSIFICATION PROGRAM FOR ALL SAFETY RELATED COMPONENTS (TAC NOS. 53711/53712)

RE: SALEM GENERATING STATION, UNIT NOS. 1 AND 2

Generic Letter 83-28, Item 2.2.1 requested licensees to describe their program for classifying all safety-related components, other than reactor trip system components, as safety-related on plant documents and in information handling systems that are used to control plant activities that may affect these components.

By letters dated July 22, 1983, September 20, 1985, and April 17, 1989 you responded to GL 83-28, Item 2.2.1. The NRC staff, with the assistance of our contractor, Idaho National Engineering laboratory, has reviewed your responses. We conclude that your program for classifying and controlling safety-related components is acceptable.

The enclosed safety evaluation and contractor's report (EGG-NTA-7392) provide the details and basis for our conclusion. Therefore, we consider Generic Letter 83-28, Item 2.2.1 to be complete.

Sincerely,

/S/

James C. Stone, Project Manager  
Project Directorate I-2  
Division of Reactor Projects I/II  
Office of Nuclear Reactor Regulation
