**ORDER**

Upon consideration of the status report filed March 20, 2018, it is

**ORDERED**, on the court's own motion, that the parties show cause by April 19, 2018, why this case should not be administratively terminated upon the docket of the court. Such action would be without prejudice to the reopening of the case by any party at any time upon the filing of a motion identifying the issues remaining to be litigated before the court. Any response to the order to show cause may not exceed 2,600 words if produced using a computer or 10 pages if handwritten or typewritten.

For the information of the parties, an administrative termination allows the court to clear its statistical docket of older cases in which no activity before the court is expected in the near future. It also relieves the court of the need to monitor the status of such cases and the parties of the responsibility to submit periodic reports. No mandate of the court issues in connection with an administrative termination.
