Gentlemen:

Subject: Systematic Assessment of Licensee Performance (SALP) Board Report  
Numbers 50-272/89-99; 50-311/89-99; 50-354/89-99

An NRC SALP Board conducted on September 19, 1990 and September 20, 1990, reviewed and evaluated the performance of activities at the Hope Creek and Salem Generating Stations, respectively, for the period of May 1, 1989 through July 31, 1990. The enclosed Initial SALP Report documents the results of this assessment. We have scheduled a management meeting to discuss the SALP evaluation at the Artificial Island complex at 10:00 a.m. on October 16, 1990.

At the SALP meeting you should be prepared to discuss our assessment, and your plans to improve performance. The meeting is intended to be a candid dialogue wherein any comments you may have regarding our reports are discussed. Additionally, you may provide written comments within 20 days after the meeting.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:  
Thomas T. Martin
