

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION I

475 ALLENDALE ROAD
KING OF PRUSSIA, PENNSYLVANIA 19406

AUG 2 1988

Docket No. 50-354

Public Service Electric & Gas Company
ATTN: Mr. Steven E. Miltenberger
Vice President and
Chief Nuclear Officer
Post Office Box 236
Hancocks Bridge, New Jersey 08038

Gentlemen:

Subject: REQUEST FOR PLANT SPECIFIC EMERGENCY OPERATING PROCEDURES (EOPs)

This letter requests submittal to the Nuclear Regulatory Commission, Region I, of facility specific Emergency Operating Procedures (EOPs) for use by the staff during Incident Response Center activation.

During a recent emergency response exercise, I determined that Region I response capability would be enhanced if the regional office had current copies of facility Emergency Operating Procedures (EOPs). Therefore, I request that a complete set of the controlled EOPs be made available to Region I. Our staff will insure that the procedures are updated as necessary to comply with your program for document control. If you find this request to be unfeasible, alternative suggestions for maintaining updated EOPs are requested. Submittal of the procedures and questions regarding document control should be addressed to Mr. R. Gallo, Chief, Operations Branch, Division of Reactor Safety, Region I (215/337-5291).

The response requested by this letter is not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Your cooperation with us in this matter is greatly appreciated.

Sincerely,

William T. Russell
Regional Administrator
