Attention: Ms. Shelly Kugler

Dear Ms. Kugler:

PUBLIC SERVICE ELECTRIC AND GAS COMPANY
SALEM GENERATING STATION
CASE NO. 92-09-14-1455-51

As per the requirements of NJAC 7:1E-5.8, PSE&G has prepared the attached report confirming the discharge to the ground of approximately three (3) gallons of lubricating oil in the scaffold storage area at the Salem Generating Station. The discharge, which was discovered on September 14, 1992, occurred entirely within PSE&G property and no injuries resulted.

As the discharge of lubricating oil is not regulated under 40 CFR 302.4, no notification of the release was reported to any agency other than the New Jersey Department of Environmental Protection and Energy (NJDEPE) and the Nuclear Regulatory Commission (NRC), as required under 10 CFR 50.72, Significant Events.

PSE&G believes that it acted in accordance with the intent of NJAC 7:1E, Subchapter 5, which requires all major facilities to notify the NJDEPE of discharges of petroleum and other potentially hazardous substances in any concentration. As a result of this discharge, PSE&G has cleaned the affected area and taken measures to reduce the potential for future occurrences.

DISCHARGE CONFIRMATION REPORT
CASE NO. 92-09-14-1455-51

INDIVIDUAL REPORTING DISCHARGE:

R. S. Gallaher
Senior Nuclear Shift Supervisor
Public Service Electric and Gas
Salem Generating Station
P. O. Box 236, M/C S01
Hancocks Bridge, New Jersey 08038
(609) 339-5200

INDIVIDUAL SUBMITTING CONFIRMATION REPORT:

C. A. Vondra
General Manager - Salem Operations
Public Service Electric and Gas
Nuclear Department
P. O. Box 236, M/C S05
Hancocks Bridge, New Jersey 08038
(609) 339-2900

FACILITY OWNER/OPERATOR:

Public Service Electric and Gas Co.
P. O. Box 570-17G
Newark, New Jersey 07101-0570
(201) 430-5868

INDIVIDUAL(S) RESPONSIBLE FOR THE DISCHARGE:

C. A. Vondra
General Manager - Salem Operations
Public Service Electric and Gas
Nuclear Department
P. O. Box 236, M/C S05
Hancocks Bridge, New Jersey 08038
(609) 339-2900

DISCHARGE SOURCE:

An oil stain was discovered by Site Services personnel during a walkdown at the Salem Generating Station. The stain was found in the vicinity of the scaffold storage area and measured approximately 50 square feet. The source of the stain is unknown but is believed to be caused by an unreported discharge from equipment operated by PSE&G or contractor personnel.

DISCHARGE CONFIRMATION REPORT
CASE NO. 92-09-14-1455-51

DISCHARGE LOCATION:

Salem Generating Station
End of Buttonwood Road
Block#: 26
Lot#: 4
Municipality: Lower Alloways Creek Township
County: Salem County
Zip Code: 08038
Tax #: 22-1212-800
EPA ID#: NJD077070811
(Map enclosed - See Figures 1 and 2)

CHEMICAL DISCHARGED:

Lubricating Oil
CAS Number: Unknown

QUANTITY DISCHARGED:	Approximately 3 gallons (Based on area affected)
DATE/TIME DISCHARGE BEGAN:	Unknown
DATE/TIME DISCHARGE ENDED:	Unknown
DATE/TIME DISCHARGE DISCOVERED:	September 14, 1992 1450 hours
DATE/TIME DISCHARGE REPORTED TO NJDEPE HOTLINE:	September 14, 1992 1453 hours

MEASURES TAKEN TO CONTAIN, CLEANUP AND REMOVE THE DISCHARGE:

Upon discovery, Site Services personnel immediately began cleanup of the area affected by the discharge. Approximately 15 cubic feet of soil and gravel were removed from the affected area and placed into drums for disposal. The drums shall be disposed of as hazardous waste at a licensed disposal facility within 90 days of generation in accordance with NJAC 7:26-9.3. The estimated cost for cleanup and disposal of the contaminated material is \$2,200.

DISCHARGE CONFIRMATION REPORT
CASE NO. 92-09-14-1455-51

CORRECTIVE MEASURES:

Due to the failure of the responsible party to report this discharge, PSE&G has taken measures to strengthen the training provided to personnel on DPCC notification requirements. Currently, all PSE&G and contractor personnel receive instruction on DPCC notification requirements as part of the General Employee Training (GET) required for all personnel granted unescorted access to the Protected Area.

In addition, the Nuclear Department's procedure on Environmental Control (NAP-37) is being revised to reflect the current discharge notification and reporting requirements and the specific procedures Nuclear Department personnel should follow. These reporting requirements have been incorporated into PSE&G's ongoing training program.

DPCC requirements shall also be incorporated into the Nuclear Department procedure on Contractor Control (NAP-68). As part of each pre-mobilization meeting conducted between the contractor and PSE&G, the Nuclear Department's DPCC notification procedures shall be reviewed. This review shall be implemented in November and incorporated into the PSE&G's Contractor Control procedure by March 15, 1993.

INDIVIDUAL(S) INVOLVED IN CONTAINMENT/CLEANUP:

The individual responsible for the cleanup and disposal of the contaminated material is:

J. G. Sterner
Yard Supervisor
Site Services Maintenance
Public Service Electric and Gas
Nuclear Department
P. O. Box 236, M/C N34
Hancocks Bridge, New Jersey 08038
(609) 339-5338

TYPE, QUANTITY, LOCATION AND DATE OF SAMPLES:

No laboratory data was collected for this discharge.

INDIVIDUAL CONDUCTING ANALYSIS: Not applicable.

QUALITY ASSURANCE PROCEDURES: Not applicable.

SAMPLE METHODOLOGY: Not applicable.

RATIONALE FOR SAMPLING LOCATION: Not applicable.

DISCHARGE CONFIRMATION REPORT
CASE NO. 92-09-14-1455-51

FINANCIAL RESPONSIBILITY:

PSE&G satisfies the requirements for self-insurance established by N.J.A.C. 7:1E-4.5(g) and will include appropriate documentation of this in its Discharge Cleanup and Removal (DCR) Plan as required by N.J.A.C. 7:1E-4.4(a)9.
