Subject: **EMERGENCY PREPAREDNESS (EP) MEETING**

Dear Mr. Miltenberger:

This letter and the enclosure summarize the August 6, 1993 EP meeting held, at your staff's request, between members of your staff and members of the NRC Region I staff in King of Prussia, Pennsylvania. The purpose of the meeting was to discuss your emergency declaration and reporting procedures incident to your response to Combined Inspection Report No. 50-272, 311/93-13, 50-354/93-09. The specific item discussed during the meeting is identified in the enclosure.

The meeting was beneficial to clarifying our understanding of your event reporting procedures and associated training. Both of our staffs agree that events that meet the Emergency Action Level criteria for event declaration, but which are terminated before they are identified and declared, should still be classified and reported, but not declared to implement the Emergency Plan. Your staff expressed the intention to draft new procedures that deal specifically with this situation. We support that initiative and strongly encourage accurate and effective event reporting, both of which are necessary for proper response, review, and follow-up.

Thank you for taking the time to discuss this important matter.

Sincerely,

Original Signed By:  
James H. Joyner
