**ORDER**

On July 11, 2017, the NRC provided notice in the *Federal Register* of the application of Diversified Scientific Service, Inc. (DSSI) to amend and renew an existing export license (XW008/04) that authorized DSSI to export radioactive waste to Canada.<sup>1</sup> The application requested an extension of the license for five years, a change to the name of an ultimate consignee, and other minor revisions to the existing license.

On August 10, 2017, Nuclear Information and Resource Service (NIRS), the Tennessee Environmental Council (TIC), and Don't Waste Michigan (DWM) filed a request for hearing and leave to intervene on DSSI's application.

On February 9, 2018, DSSI filed a revised application with the NRC to amend and renew XW008/04. The NRC will provide notice in the *Federal Register* of the opportunity to request a hearing on DSSI's revised application. In view of DSSI's revised application, NIRS, TIC, and DWM may, within thirty days after the date of publication in the *Federal Register* of the revised application, submit an amended request for hearing and intervention in response to the revised application.

<sup>1</sup> Diversified Scientific Service, Inc., 82 Fed. Reg. 32,014 (July 11, 2017).

This order is issued under my authority in 10 C.F.R. § 110.88.

IT IS SO ORDERED.

For the Commission

**NRC SEAL**
