Gentlemen:

**ADDITIONAL INFORMATION
REVISED RESPONSE TO NRC NOTICE OF VIOLATION
INSPECTION REPORT 50-272/96-01, 50-311/96-01
SALEM GENERATING STATION
UNIT NOS. 1 AND 2
DOCKET NOS. 50-272 AND 50-311**

In letter dated April 25, 1996, (LR-N96105) Public Service Electric and Gas (PSE&G) committed to revise procedure NC.NA-AP.ZZ-0009 (NAP-9), Work Control Process. In letter dated July 31, 1996, (LR-N96224) PSE&G modified the commitment due date from July 31, 1996 to prior to unit 2 restart. PSE&G also committed to notify the NRC with the results of the work management process evaluation by August 31, 1996. The following paragraphs provide a brief summary of the results of this evaluation.

As part of the restart program for Salem Units 1 and 2, PSE&G established a Work Control Process improvement team to evaluate different alternatives to improve the overall work management process. As a result of this evaluation the Work Control process will be streamlined by relocating task-specific details from procedure NAP-9 to one or more of the following; NC.NA-AP.ZZ-0000 (NAP-0), Action Request Process, the Work Management Manual, or the Department Desk Guides.

Accordingly, the next revision to NAP-9 will remove task-specific steps. The specified commitments will be included in the Work Management Manual, the Planning and Maintenance Desk Guides, or NAP-0, as appropriate, prior to Unit 2 restart. PSE&G believes that by incorporating the commitments into these documents an equivalent level of compliance is achieved.

As PSE&G continues to identify opportunities to improve safety, reliability and overall efficiency of its management programs, regulatory commitments may be modified, relocated or eliminated. PSE&G's process for managing commitments follows the guidelines developed by the Nuclear Energy Institute (NEI). This notification is being made consistent with the NEI guidance.

Should there be any questions, please do not hesitate to contact us.

Sincerely,

A handwritten signature in cursive script, appearing to read "Louis L. Storz".
