SUBJECT: COMBINED SALEM EXAMINATION REPORT NOS. 50-272/97-01 (OL) AND
50-311/97-01 (OL)

Dear Mr. Eliason:

During the period January 6 - 10, 1997, the NRC administered initial examinations to 10 employees of your company who had applied for licenses to operate the Salem Nuclear Generating Station. The examination was developed by the Salem training department utilizing the guidance of NUREG-1021, "Operator Licensing Examiner Standards," Rev. 7 and Generic Letter 95-06.

The results of the examinations were that all three reactor operator (RO) candidates and six of the seven senior reactor operator instant (SROI) candidates passed all exam sections. One SROI candidate failed the dynamic simulator portion of the operating test.

Should you have any questions concerning this examination, please contact me at (610) 337-5211.

Sincerely,

A handwritten signature in black ink, appearing to read "Glenn W. Meyer".
