General Comment

This has not been a good week for President Tiny Hands, as his own attorney is being investigated for bank fraud and illegal campaign funding. But before drawing any conclusions from this we should let the investigation proceed and see if any charges are filed. It's entirely possible that the attorney is not criminal but simply incompetent.

Hey speaking of incompetent, remember when President Impeachment Bait was going to balance the budget? Actually better than that -- back in March 2016 he said that he could eliminate that entire national debt in 8 years. Then in April he said... well maybe he couldn't eliminate the debt, but he could definitely reduce it. And now that he's in office and the GOP tax scam has been passed, the CBO projects yuge annual deficits that will top \$1 trillion per year by 2020. As Rick "Smart Glasses" Perry would say, Ooops.
