Sub: Request for an Amendment of Medstar Washington Hospital Center's (MWHC)
Broadscope License

NRC License Number: 08-03604-03, Docket No: 030-01325

Dear Ms. Janda:

Recently, the number of Yttrium-90 Therapies at MWHC has gone up significantly. These numbers are expected to increase as MWHC has hired a new IR physician last week and another IR physician is starting next month. These IR physicians are already experienced in performing Y-90 therapies. Therefore, we are requesting to increase our current possession limit for Y-90 (SIRspheres) from 1.5 Ci to 3.0 Ci and for Y-90 (Theraspheres) from 1.5 Ci to 3.0 Ci.

I would appreciate your help if you could please expedite the amendment request. Please contact Dr. Shashadhar Mohapatra at 202-877-2906 if you have any further questions.

Thank you in advance for your help and consideration.

Sincerely,

Gayle Thompson Smillie
