Subject: Request for Information

Good Afternoon Mr. Sturges,

In a letter dated November 30, 2017, you requested the termination of exempt distribution license No. 20-15285-03E. The staff noticed that there was a registration certificate associated with that license number. The registration certificate number is NR-0668-D-101-E. This registration was issued for the device models listed in your exempt distribution license. Since you no longer has an active exempt distribution license the registration certificate must be inactivated. In order to complete the inactivation of registration certificate NR-0668-D-101-E we need the following information:

- The total number of the products sold.
- Please confirm that product is no longer commercially distributed
- Please confirm that no changes were made to the product since its initial registration or last amendment. If changes have been made, please provide the new information for inclusion in the inactive certificate.

Please submit the requested information within 30 days of the date of this email. The information should be submitted in an official company letter via facsimile at 301-415-5955 or as an attachment to an e-mail.

Please let me know if you have any questions.

Thanks,

Lymari Sepulveda
