Greetings Mrs. DeSouza,

I have received this material, and can confirm that the NRC examination is also on our calendar for the week of May 7th.

I have sent you all materials other than the PowerPoint's we have used for lecture in the Reactor Operator Training Class. We are trying to ensure that we have all of them before sending them in for your addition to the examination writing.

In addition, all the applications have been sent in password-protected PDF (4 RO, 2 SRO).

Any news on the 10 CFR's in paper copy for our use?

If you have any questions or concerns please let me know.

Thanks,

Maxwell

Mr. Daniels,

Thank you for confirming, that week is now on the master and my schedule as well.

Please forward ALL your facility documents ASAP. These documents are, but not limited to: Technical Specification, SAR, Emergency Plan, Security Plan, Requalification Plan, Administrative Procedures, Operating Procedures, and any training manuals/materials utilized in the training program. Please ensure these documents are sent in timely manner as this can directly affect the scheduled examinations. Also, password protected email(s) works great but keep in mind security issues or proprietary issues.

Your confirmation of receipt and acceptance of this email is required for tracking purposes.

Thank you,
Michele DeSouza

Greetings Ms.DeSouza,

We have conferred and would like to schedule the exam after finals week.

The week of May 7th.

Please let me know if this will still work. I will be sending applications and medicals first thing this next week.

Warm Regards,

Maxwell

Subject: ISU examination week?

Mr. Daniels,

Please confirm the week your applicants and facility request the examination. It is imperative this information is received so we can proceed with the preparation and process. Contact me with questions.

Thank you,
Michele DeSouza
