SUBJECT: MEETING SUMMARY REGARDING HONEYWELL LICENSE
RENEWAL APPLICATION REVIEW IN THE AREAS OF
INTEGRATED SAFETY ANALYSIS AND MANAGEMENT
MEASURES APRIL 12, 2018 (COST ACTIVITY CODE/
DOCKET/EPID NUMBER: 000224/04003392/L-2017-RNW-0002)

On April 12, 2018, the U.S. Nuclear Regulatory Commission (NRC) staff and representatives of Honeywell International (Honeywell) held a Category 1 meeting to discuss Honeywell's license renewal application (LRA) submittal dated February 8, 2017 (Agencywide Documents Access and Management System [ADAMS] Accession Number ML17048A263), as supplemented by letter dated September 20, 2017 (ADAMS Accession Number ML17291A652) for its Metropolis Works facility. Specifically, the purpose of the meeting was to discuss Honeywell's draft response to the NRC's request for additional information (RAI) in the areas of Integrated Safety Analysis (ISA) and Management Measures.

A portion of the April 12, 2018, meeting was open to the public for observation, during which Honeywell provided an overview of its LRA and general status of its ISA Summary. The remaining portion of the meeting was closed to the public because specific details which were discussed included security-related information, and proprietary information.

The meeting was useful to the NRC staff in understanding Honeywell's proposed response to the staff's RAI, to ensure that the proposed response would meet the review needs of the staff. The meeting provided an effective and efficient forum of communication and benefited the NRC staff and Honeywell representatives.

CONTACT: Tilda Liu, NMSS/FCSE

Honeywell stated that a revised RAI response due date, originally set for April 16, 2018, would be needed to allow ample time to clarify its response based on the meeting discussion. The NRC staff indicated that a revised due date to the RAI response would be identified in the near future using routine project communication protocol. No NRC staff decision was made during the meeting.

Enclosure 1 contains a list of those individuals who participated in the April 12, 2018, meeting. Enclosure 2 contains the handout provided by Honeywell regarding its license renewal overview and status, as used during the open portion of the meeting on April 12, 2018. Enclosure 3, which is non-publicly available, contains Honeywell's draft response to the NRC staff's RAI in the areas of ISA Summary and Management Measures. Honeywell provided the NRC staff a copy of its draft RAI response in advance of the meeting. The draft response was subsequently used in facilitate the discussion during the closed portion of the meeting.

Honeywell has reviewed and commented on this summary.
