

March 7, 2018

To whom it may concern:

Simpson Materials Company, LLC, has only possessed one Seaman Nuclear density gauge C-200, S/N H304, during the time we have had a license with the NRC.

A handwritten signature in black ink, appearing to read 'JC Webb', is written in a cursive style.

Thank you J.C., I have received the faxed information.

Per our conversation, as your license also permitted you to possess either a second Seaman Nuclear C-200 or a Seaman Nuclear C-300 device can you also please provide a short statement (1-2 sentences is fine) confirming that you have only ever possessed the one Seaman Nuclear C-200 gauge.

Please ensure that your response is both signed and dated. I can be reached at 630-829-9712 or via email if you have any questions.

Thank you,
Laura
