Subject: [External_Sender] RE: NRC license application for West Virginia location

47-35479-01
03039100

Betsy,

Thank you for your email. I can confirm that SWN management is aware of the NRC license application, and does desire that such application be approved. Please note that for transparency purposes I am copying my boss, who is an executive officer of SWN (Jennifer Stewart, Senior Vice President – Government and Regulatory Affairs).

Please let me know if anything further needs to be done on my end to effect approval of the license, and I apologize for the delay in my response.....I've been out of town on business.

Thanks!

Dan

Subject: NRC license application for West Virginia location

License No. 47-35479-01
Docket No. 030-38100
Control No. 602637
Southwestern Energy

Mr. Croll,

Your name was provided as the Regulatory Director for Southwestern Energy Company, to verify that corporate management is aware of the Bethany, WV office application for an NRC license. I understand that the Bethany office has been working in West Virginia under reciprocity, and this license will allow work to continue past the maximum allowed days under reciprocity.

When I receive confirmation that corporate management is aware of the application and in agreement, I can issue the license. The technical review was completed by Dennis Lawyer of our office, and he prepared all the documentation needed to issue the license. Because Dennis is out of the office for the next several weeks, I am completing this last requirement for him.

Please contact me if you have any additional questions. Thanks for your attention.
