Office of Nuclear Reactor Regulation Attention: Mr. R. W. Reid, Director **Operating Reactors Branch #4** Division of Operating Reactors U. S. Nuclear Regulatory Commission Washington, D. C. 20555

Dear Mr. Reid:

St. Lucie Unit 1 Re: Docket No. 50-335 RTD Response Time

A proposed Technical Specification amendment on the subject of RTD response time was forwarded to the Director, Division of Operating Reactors on February 2, 1978 (L-78-39). We have since received a report from our consultant on this issue, entitled "Response Time of Platinum Resistance Thermometers Using Loop Current Step Response Techniques." One copy of this report is attached for your use in processing the proposed amendment.

Due to the proprietary nature of the material contained in the report, we request that it be withheld from disclosure in accordance with 10 CFR 2.790 and that the material contained therein be safeguarded. An affidavit delineating the reasons for classifying the report as proprietary is being prepared and will be forwarded to your office.

Very truly yours,

- Uhrig Robert E. Uhrig

Vice President
