U. S. NUCLEAR REGULATORY COMMISSION
Washington, D. C. 20555

Dear Mr. Davis:

Thank you for your letter of December 13 which enclosed the FEDERAL REGISTER notice submitted on that date indicating that the Coalition's November 1 letter to the Commissioners was to be treated under 10 CFR 2.206.

We shall look forward to receiving your decision regarding our November 1 letter in the near future. It is unfortunate that at the time the letter was written, the Coalition was unaware of VEPCO's letter to you of November 22, 1978 regarding "Destroyed and Reset Survey Points." Surely that information also should come before the Commissioners.

On a slightly different topic, would you be kind enough to supply the Coalition with the following information:

1. A list of the Notices of Violation received by VEPCO for North Anna #1 since April 1, 1978, including the date and cause of the Notice.
2. A comparable list of Notices of Violation received by VEPCO for Surry #1 and 2 within the same time frame of April 1, 1978 to December 20.
3. An indication of the average number of Notices of Violation received by comparable utilities in the same time frame.
4. NRC enforcement actions in regard to cumulative notices of violation, particularly those that deal with miscalculation in regard to all aspects of radiation safety.

Because of Senator Byrd's kind interest, we shall send a copy of this letter to him and suggest that you might wish to send a copy of your response to him also. Thank you for writing.

Sincerely,

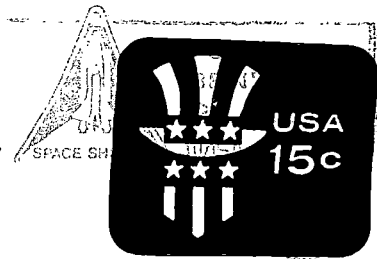

June Allen (Mrs. P. M.)

President, NAEU
