Dear Sir or Madam:

Hendricks Regional Health would like to amend its NRC Byproduct Materials License, Number 13-17082-01, to add authorization for materials licensed under 10 CFR 35.300, with a possession limit of 1 curie. A request was made in 2017 to add an Authorized User (with authorizations for 10 CFR 35.100, 35.200, 35.392, and 35.394) and a licensee authorization for material licensed under 10 CFR 35.300. The request was granted to add the Authorized User but the addition of licensee authorization for 10 CFR 35.300 materials was accidentally left off.

If there are any questions concerning this license amendment, please contact our nuclear medicine physicist, Mr. Patrick J. Byrne, DABR, CHP, DABSNM, at 877-317-5811.

Sincerely,

A handwritten signature in cursive script that reads "Sandy Kelly".

Sandy Kelly, MBA, R.T.(R, M)
Director of Radiology
