Office of Nuclear Reactor Regulation
Attention: Mr. R. W. Reid, Director
Operating Reactors Branch #4
Division of Operating Reactors
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Reid:

Re: St. Lucie Unit 1
Docket No. 50-335
Fracture Toughness and Potential For Lamellar
Tearing of Steam Generator and Reactor Coolant
Pump Support Materials

On September, 14, 1977, in a letter from Mr. Don K. Davis, the NRC requested that Florida Power & Light Company provide information concerning fracture toughness and the potential for lamellar tearing in the steam generator and reactor coolant pump support materials for St. Lucie Unit 1.

Please be advised that this information was turned over to NRC staff reviewers during a meeting in your offices on May 11, 1978.

Very truly yours,

Robert E. Uhrig
Vice President
