Margrethe Kearney and Andrene Dabaghi,

I have been assigned as the Petition Manager for your 10 CFR 2.206 petition dated March 27, 2018, you submitted to the NRC regarding your concerns on FirstEnergy Nuclear Facility Operations in Ohio and Pennsylvania.

Section 2.206 of Title 10 of the Code of Federal Regulations describes the petition process – the primary mechanism for the public to request enforcement action by the NRC in a public process. This process permits anyone to petition NRC to take enforcement-type action related to NRC licensees or licensed activities. Depending on the results of its evaluation, NRC could modify, suspend or revoke an NRC-issued license or take any other appropriate enforcement action to resolve a problem. The NRC staff's guidance for the disposition of 2.206 petition requests is in Management Directive 8.11, which is publicly available through a link at <https://www.nrc.gov/about-nrc/regulatory/enforcement/petition.html> or under Agencywide Documents Access Management System (ADAMS) Accession No. ML041770328. The 2.206 process is separate from the allegations process which affords individuals who raise safety concerns a degree of protection of their identity. In the 2.206 process, all of the information in your letter will be made public, including your identity.

Under MD 8.11, you have the opportunity to address the Petition Review Board, either in person at NRC headquarters in Rockville, MD, or by telephone conference before it meets to discuss your petition. I would appreciate if you could advise me by April 20, 2018, if you would like to address the Petition Review Board. If you would like to meet in person, I will need to schedule a formal public meeting at the NRC Headquarters. If you would prefer to address the Petition Review Board via phone, I will also work with you to coordinate a date/time during the upcoming weeks.

It is noted that the petition does not provide one point of contact for the communications such as emails and telephone calls. Therefore, please let me know if I need to contact both of you for all the communications, or only one of you.

The NRC is currently adding your submission to ADAMS. I will inform you when the document is publicly available in ADAMS.

Thank you,

Bhalchandra K. Vaidya
Licensing Project Manager
