

**TMI-1 UFSAR**

APPENDIX 5C

GILBERT ASSOCIATES, INC., REPORT

TO

METROPOLITAN EDISON COMPANY

ON

DESIGN OF LARGE OPENING REINFORCEMENTS

FOR REACTOR BUILDING

FOR

THREE MILE ISLAND NUCLEAR STATION  
UNIT 1

This Report Contains:

44 pages of text  
8 tables  
29 figures  
2 drawings

Appendix A (8 pages)  
Appendix B (3 pages)

**TMI-1 UFSAR**

DESIGN OF  
LARGE OPENING REINFORCEMENTS  
FOR REACTOR BUILDING  
METROPOLITAN EDISON COMPANY  
THREE MILE ISLAND NUCLEAR POWER STATION - UNIT NO. 1

BY  
GILBERT ASSOCIATES, INC.

# TMI-1 UFSAR

## TABLE OF CONTENTS

<u>ITEM</u>	<u>TITLE</u>
	SUMMARY
1	DESIGN BASES
1.1	General
1.2	Design Loads
1.3	Load Combinations
1.4	Material Stress/Strain Criteria
1.5	Test Condition
1.6	Operating Condition
2	GENERAL DESCRIPTION OF OPENING REINFORCEMENT
2.1	Introduction
2.2	Ring Reinforcement Splices
2.3	Normal Shear at Edge of Opening
2.4	Prestressing
3.	STRESS DISTRIBUTION AROUND A CIRCULAR HOLE IN A CIRCULAR CYLINDRICAL SHELL
3.1	Introduction
3.2	Finite-Element Method
3.3	Application of Three-Dimensional Photoelasticity
4	ANALYSIS OF THE STRESS AROUND LARGE OPENINGS IN THE THREE MILE ISLAND REACTOR BUILDING
4.1	Verification of Finite-Element Method of Analysis
4.2	Stress Analysis Under Operating and Accident Loads
4.2.1	Representation of the Shell Around the Opening
4.2.2	Basic Loading Conditions
4.2.3	Effect of Creep and Shrinkage
5	VERIFICATION OF DESIGN CRITERIA
5.1	Basis for Verification of Shell Loading Capacity Due to Primary Loads (Principal Stress-resultants and Principal Stress-couples)
5.2	Interaction Diagram
5.3	Reinforcing Steel
5.4	Penetration Barrel
5.5	Concrete Shear
5.6	Shear - Diagonal Tension
5.7	Shear - Transfer Plates
5.8	Radial Reinforcement
5.9	Summary of Design and Conclusion

## LIST OF TABLES

<u>NUMBER</u>	<u>TITLE</u>
5C-1	Fundamental Loads
5C-2	Stress Around Equipment Hatch Loading Condition No. 1 Dead Load
5C-3	Stress Around Equipment Hatch Loading Condition No. 2 Hoop & Verticle Prestress
5C-4	Stress Around Equipment Hatch Loading Condition No. 3 Operating Temperature (Winter)
5C-5	Stress Around Equipment Hatch Loading Condition No. 4 Accident Temperature (with Barrel Effect)
5C-6	Stress Around Equipment Hatch Loading Condition No. 5 55 Psig Internal Pressure
5C-7	Stress Around Equipment Hatch Loading Condition No. 6 Earthquake # 1
5C-8	Stress Around Equipment Hatch Loading Condition No. 7 Earthquake #2

# TMI-1 UFSAR

## LIST OF FIGURES

<u>NUMBER</u>	<u>TITLE</u>
5C-1	Total Stress Concentration Factors For Given Loading Cases
5C-2	Stress Concentration Factor Variations For Different Bpo At Various Angles - Capped Cylinder
5C-3	Stress Distribution Around Openings in Cylindrical Shells
5C-4	Grid For Finite Element Analysis of Stresses Around Equipment Hatch In RCB
5C-5	Layer Thickness And Designation
5C-6	Member Stresses Around Opening Edge (Vessel Subject To Internal Pressure)
5C-7	Surface Stresses Around Opening Edge (Vessel Subject To Internal Pressure)
5C-8	Hoop Stresses Along Longitudinal Axis (Vessel Subject To Internal Pressure)
5C-9	Axial Stresses Along Transverse Axis (Vessel Subject To Internal Pressure)
5C-10	Hoop Stress-Resultant $N_o$ Along Symmetry Axes (Test Problem)
5C-11	Effect of Tendon Curvature
5C-12	Nodal Forces Due to Curvature of Tendons In Neighborhood of Operating
5C-13	Normal Winter Operating Temperature Gradient-84" Thick Wall Near Equipment Opening
5C-14	Normal Winter Operating Temperature Gradient-42" Thick Wall Near Equipment Opening
5C-15	Normal Winter Operating Temperature Gradient-Transition Wall Near Equipment Opening
5C-16	Winter Accident Temperature Gradient-84" Thick Wall Near Equipment Opening
5C-17	Winter Accident Temperature Gradient-42" Thick Wall Near Equipment Opening
5C-18	Winter Accident Temperature Gradient-Transition Wall Near Equipment Opening
5C-19	Interaction Diagram For Axial Compression/Tension And Bending
5C-20	Equipment Access Interaction Diagram -Elements 77 & 101
5C-21	Equipment Access Interaction Diagram - Elements 66 & 100
5C-22	Equipment Access Interaction Diagram - Elements 55 & 99

## TMI-1 UFSAR

5C-23	Equipment Access Interaction Diagram - Element 44
5C-24	Equipment Access Interaction Diagram - Element 73
5C-25	Equipment Access Interaction Diagram - Element 74
5C-26	Equipment Access Interaction Diagram - Elements 66 & 77
5C-27	Equipment Access Interaction Diagram - Elements 44 & 55
5C-28	Equipment Access Interaction Diagram - Elements 99, 100, & 101
5C-29	Shear Transfer Plates
