30 April 2018

MEMORANDUM FOR U.S. Nuclear Regulatory Commission, Region III, Nuclear Materials Licensing Section, 801 Warrenville Road, Lisle, Illinois 60532-4351

SUBJECT: Clarification of Tie Down Documents for Nuclear Regulatory Commission License Number 24-15095-01

1. General Leonard Wood Army Community Hospital does not intend to conduct removable contamination surveys at a frequency defined as "this room will be checked for radiological contamination by wipe and meter survey after each procedure." This statement is contained in point 1c of the following correspondences with the NRC, pursuant to NRC license 24-15095-01.
  - a. Letter dated 17 November 2014 (ML 14329B322)
  - b. Letter dated 10 March 2017 (ML 17072A109)
  - c. Letter dated 8 June 2017 (ML 17159A690)
2. We have developed and will implement and maintain written procedures for area surveys in accordance with 10 CFR 20.1101 that meet the requirements of 10 CFR 20.1501 and 10 CFR 35.70.
3. Point of contact is the undersigned at 573-596-9879 or [raymond.h.meyer.mil@mail.mil](mailto:raymond.h.meyer.mil@mail.mil).

**Subject:** [External\_Sender] Simplified Area Survey document

Sir,

Enclosed per your request is a vastly simplified version of the notification letter dated 12 March 2018.

I wanted to keep the bullet point pertaining to NUREG-1556 Appendix R, but it would seem to be redundant with point #2. Please let me know if there is anything else I can do to help. I appreciate you following up with me on this matter.

Thank you for your time,

-Raymond H. Meyer
