SUBJECT

NRC License No. 13-32670-01 Renewal - Additional Information Requested

SUMMARY

This refers to your license renewal request, and the phone conversation between Chris Sarvanidis and Laura Cender that occurred on March 21, 2018.

During our review of your license renewal application it was determined that additional information is still required in order to complete the licensing action. Please see the attached Page 2 for all issues discussed that require a response.

ACTION REQUIRED (IF ANY)

Please submit your response by April 6, 2018, and reference it to my attention as "additional information to control number 601550" to facilitate proper handling in our office. Your response must be currently dated and signed by either the RSO, or a senior management representative. If you have any questions or require clarification regarding any information discussed please do not hesitate to contact me at 630-829-9712.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

CONVERSATION RECORD (continued)

SUMMARY: (Continued from page 1)

1. Please resubmit the attached Application Item 10.2 "Radiation Safety Program - Monitoring Instruments." In the first submission only the first box referring to individuals outside of the organization was selected, but later in your application you confirm that your organization both possesses and uses survey meters as well.
2. Please provide a facility diagram showing where licensed material will be stored when not in service and provide a description of how access is limited to the facility.
 - a. Per our discussion earlier this morning the photos/description is acceptable.
 - b. Please also provide an aerial view of the storage location by using a tool such as such as Google Maps - Satellite View (or comparable tool) or a rough sketch to indicate where the storage location is in relation to the rest of the facility.
3. In the document titled "Non-Routine Activities (Form 313; 10.8) Supporting Documentation" please confirm in the Source Removal portion of this document that the source shutter will be locked out and tagged out.
4. Regarding Caster sources listed in License Condition 17.B please provide the following information:
 - a. List the device model(s) that are used with the caster molds.
 - b. Provide the operating procedure that workers use when removing, transporting, and re-installing the caster source.
 - c. Provide a statement confirming that workers will have some hands on training with the caster source removal/re-installation procedure as part of their initial training.
 - d. Provide a description of the storage enclosure used for caster sources. A photograph or diagram of the enclosures location is not required. In your response please include an estimate of the distance between the mold and the enclosure, how the enclosure is secured and who has access to the storage enclosure, and how the enclosures are designed to reduce radiation exposure to workers.
5. In Item 8 of the letter you provided dated December 8, 2018 you requested to withdraw the submitted "Policies Governing the Use of Ionizing Radiation" attachment from your original application. Sections 8.4 and 8.5 of this policy regarding training are directly referenced in the section of your application describing the caster sources. Please provide a statement confirming that Section 8.4 and 8.5 of the "Policies Governing the Use of Ionizing Radiation" may be included again as part of the application.
6. Please ensure that your response is both signed and dated.
