

CHAIRMAN

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

June 8, 2018

The Honorable Paul D. Ryan
Speaker of the House of Representatives
Washington, DC 20515

Dear Mr. Speaker:

On behalf of the U.S. Nuclear Regulatory Commission (NRC), I am forwarding the enclosed "Report to Congress on Abnormal Occurrences: Fiscal Year (FY) 2017." This submission is in accordance with Section 208 of the Energy Reorganization Act of 1974, as amended (Public Law 93-438), and the Federal Reports Elimination and Sunset Act of 1995 (Public Law 104-66), which require the NRC to identify and report abnormal occurrences (AOs) to Congress annually. An AO is an unscheduled incident or event that the Commission determines to be significant from the standpoint of public health or safety.

The NRC initially issued the AO criteria in a policy statement that the Commission published in 1977 followed by several revisions in subsequent years. The NRC published the most recent revision to the AO criteria in the *Federal Register* (FR) on October 2, 2017 (82 FR 45907); the revised criteria became effective on that date. This revision establishes the criteria that will be used to define AOs for the FY 2018 report and forward. Since the October 2017 criteria were not in effect during FY 2017, this report uses the revision to the AO criteria published in the FR on October 12, 2006 (71 FR 60198), to define AOs for the enclosed report.

The enclosed AO report for FY 2017 describes five events involving NRC licensees and six events involving Agreement State licensees. All 11 AOs were medical events, as defined in NRC regulations.

Sincerely,

A handwritten signature in blue ink, appearing to read "Kristine L. Svinicki".

Kristine L. Svinicki

Enclosure:
As stated

Identical letter sent to:

The Honorable Paul D. Ryan
Speaker of the House of Representatives
