May 2, 2018

Director, Division of Spent Fuel Management
Office of Nuclear Material Safety and Safeguards
U.S. Nuclear Regulatory Commission
Document Control Desk
Washington, DC 20555

Dear Sir / Madam:

Subject: VIRGIL C. SUMMER NUCLEAR STATION (VCSNS), UNIT 1
DOCKET NO. 50-395 AND 72-1038
OPERATING LICENSE NO. NPF-12
10 CFR 72.48 BIENNIAL REPORT

South Carolina Electric & Gas Company (SCE&G) hereby submits the first VCSNS report pursuant to 10 CFR 72.48(d)(2) for changes made to the Independent Spent Fuel Storage Installation (ISFSI).

10 CFR 72.48(d)(2) requires a report containing a brief description of any ISFSI-related changes, tests, or experiments made in the last 24 months. There have been no ISFSI-related changes evaluated under the 72.48 process during the time period since the initial fuel transfer campaign in March 2016 through the end of March 2018.

If you have any questions or require additional information, please contact Michael Moore at (803) 345-4752.

Very Truly Yours

George Lippard
