**RE: License SUA-442, Docket No. 40-6622
Response to Inquiry Regarding 2016-2017 ALARA Audit**

Dear Mr. Orlando,

On April 24, 2018 we received an undated letter from your office seeking information on two items related to the 2016-17 ALARA audit for the Shirley Basin Project. The questions and our responses are provided below:

1. Was the annual Standard Operating Procedure review completed by the end of the calendar year, as indicated in the report? **Response: Yes, both the RSO and the President reviewed each of the SOPs with a nexus to radiologic safety late in 2017.**
2. What is the status of recommendation number 2 from the 2016-2017 ALARA audit, specifically, "Provide additional emergency response information at the trailer office (names and phone numbers of emergency contacts and site coordinates)." **Response: The names and phone numbers of relevant company employees has been placed in the office along with the site coordinates.**

Regards,

Mr. John W. Cash
President
