Dear Dr. Reyburn:

It has come to our attention that Amendment No. 1 to your NRC Material License No. 13-32467-01, issued December 10, 2013, contained errors.

The license number in Item 3 on page 1 shows "13-32467-01-01," when it should read "13-32467-01."

The license number in the top right corner of page 2 is incorrect. It should also be "13-32467-01."

Your corrected copy, enclosed, has been prepared using our new Web Based Licensing System (WBL), and it reflects the corrections noted.

In the course of making the adjustments above, I also updated the identification of the document listed in what is now Condition No. 13.A. It now appears as "Letter dated June 3, 2013...." and it includes reference to the ADAMS accession number at the end.

On page 1 of the license, above Item 3, the identification of the originating document is also changed to "Letter dated June 3, 2013."

Please also note that we deleted Condition No. 13, as it appeared on your new license, because reference to 10 CFR Part 71 was added to the Preamble at the top of page 1 of your license.

We apologize for these errors and for any inconvenience they may have caused.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

If you have any questions concerning this amendment please contact me at either (630) 829-9841 or (800) 522-3025, ext. 9841. My fax number is 630-515-1078. My email address is colleen.casey@nrc.gov.
