Subject: [External_Sender] RE: February 27 - 28, 2018 Licensing Support Network Advisory Review Panel Meeting
Date: Friday, February 16, 2018 6:04:02 PM

Brian Newell
Rulemakings and Adjudications Staff
Office of the Secretary
U.S. Nuclear Regulatory Commission

Dear Mr. Newell:

In response to the questions posed in your email of February 13, 2018, relating to LSNARP meeting logistics:

- 1) Several members of our team will be attending via GoToMeeting, from Carson City, in the same office using the same computer.
- 2) Several additional members of our team will be attending via GoToWebinar, from various locations, watching from their individual computers.
- 3) Our members will have microphone headset and video capability on their computers.

As we discussed previously, four members of our team will be attending the meeting in Rockville: Laurie Borski, Steve Frushman, Robert Halstead, and Marty Malsch. We are planning to give a 45-60 minute presentation (assuming 15 minutes for questions) at the meeting, using POWERPOINT slides.

We look forward to hearing from you regarding additional details, including the revised agenda for February 27, and any information regarding the February 28 portion of the meeting.

Respectfully,

Robert Halstead

Robert J. Halstead
Executive Director
State of Nevada - Office of the Governor
Agency for Nuclear Projects

Subject: February 27 - 28, 2018 Licensing Support Network Advisory Review Panel Meeting

Last week I spoke with Robert Halstead, who has stated that a number of you may be attending the Licensing Support Network Advisory Review Panel (LSNARP) meeting on February 27-28, 2018 remotely via GoToMeeting or GoToWebinar on behalf of the State of Nevada. In order to logistically prepare to accommodate all of our LSNARP member personnel, can you please verify the following?

- 1) Will you be attending via GoToMeeting? Please keep in mind that GoToMeeting only allots 1 slot per member organization, so if you will be using GoToMeeting then you will need to be in the same office using the same computer.
- 2) Will you be attending via GoToWebinar? This is the version that is open to the public and you will be able to watch it on your individual computers.
- 3) Do you have a microphone headset and video capability on your computer?

This information would be helpful to have by the end of the week, in time for our connectivity test next Tuesday. Any information you can provide would be greatly appreciated.

Thank you.
