AEROTEST RADIOGRAPHY AND RESEARCH REACTOR
DOCKET NO. 50-228/LICENSE NO. R-98.

SUBJECT: AEROTEST OPERATIONS, INC. — IRREVOCABLE STANDBY LETTER OF
CREDIT FOR THE AEROTEST RADIOGRAPHY AND RESEARCH REACTOR

Ladies and Gentlemen:

I formally request a 60 day extension beyond the initial response deadline given for responding to NRC Letter (ML18054A077) dated March 8, 2018. The letter identifies two apparent substantive differences between Aerotest's irrevocable standby letter of credit, dated July 14, 2017, and RG 1.159 and requests Aerotest to explain how it will conform to RG 1.159. The proposed changes were under review by Aerotest and submitted to Bank of the West (BoW) for their acceptance and corrective action. Currently no issues with the corrective action have been identified however a delay has occurred due to multiple bank department reviews within BoW. The BoW Global Trade Group have been tasked the responsibility for the corrective action. Also, I plan to review the corrections before BoW submits the revised LoC to the NRC.

Should you have any questions or require additional information regarding this submission, please contact AO President David M. Slaughter, Ph.D. at (801) 631 5919 or dmsraven@gmail.com

I declare under penalty of perjury that the statements above are correct and truthful.

Sincerely yours,

David M. Slaughter, Ph.D.
President and Reactor Admin.
