1. Please note NUREG-1556, Vol. 1, Rev. 2, *Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Portable Gauge Licenses* (<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/>), 8.9, Item 9 request the following:

Provide a facility diagram for each permanent portable gauge storage location (the new storage location requested in Item 3 of your application dated February 15, 2018). Please include on the diagram the use of adjacent areas (including above and below), and information relevant to public dose and security as discussed in Sections 8.10.5, "Public Dose," and 8.10.6, "Operating, Emergency, and Security Procedures," respectively, in NUREG-1556, Vol. 1, Rev. 2.

2. In your amendment application dated February 15, 2018, you requested to add two field offices and storage locations to your license. However, in an email to me dated March 21, 2018, Dr. Janine Katanic expressed your desire to no longer want to add one of the two field offices and storage locations requested in your amendment request application. She also stated that she asked you to send something to our licensing assistant, Carol Hill, to make this change to your amendment request; however, as of today, it appears we have not received the update to your original amendment request.

Please clarify this discrepancy by letting us know the field office and storage location you plan to add to your license.
