RE: Docket ID NRC-2018-0052 Holtec International's HI-STORE Consolidated Interim Storage Facility Project for Spent Nuclear Fuel in Lea County, New Mexico.

Dear NRC Representative: WE DO NOT CONSENT!

I ask you to take my comments seriously related to Holtec's Interim Storage Project for Spent Nuclear fuel in Lea County, New Mexico. One of my biggest concerns is the supposedly "temporary" nature of this project. IF all these canisters of high level nuclear (radioactive) waste are moved from all over the USA to a site in New Mexico, why would it make sense to move them again? The permanent storage of this used fuel needs to be addressed + answered prior to moving it in the first place. This project has not been thought through completely. It needs to be stopped!

Sincerely, Ronda Suderman King
