2443 WARRENVILLE ROAD, SUITE 210
LISLE, ILLINOIS 60532-4352

May 10, 2018

Ms. Mara Jelich
Executive Director, Radiation Oncology
and Imaging Services
Karmanos Cancer Center
4100 John R Street
Detroit, MI 48201

SUBJECT: CLOSURE OF UNRESOLVED ITEM FROM NRC ROUTINE INSPECTION
REPORT NO. 03009376/2017001(DNMS) – KARMANOS CANCER CENTER

Dear Ms. Jelich:

This letter refers to the routine inspection conducted on May 23-24, 2017, at your facility in Detroit, Michigan, with continued in-office review through June 29, 2017. During this inspection one unresolved item of a security-related nature was identified. Details regarding this unresolved item were provided in an U.S. Nuclear Regulatory Commission (NRC) Inspection Report No. 03009376/2017001(DNMS), dated July 18, 2017.

As a result of our deliberations on the matter, including a follow-up discussion via telephone on April 26, 2018, between Mr. Ryan Craffey of my staff and Dr. Joseph Rakowski of yours, the NRC has concluded that no violations of NRC requirements were identified as a result of this inspection. The unresolved item is therefore closed. Details of the agency's deliberations are provided in the enclosed security addendum.

In accordance with Title 10 of the *Code of Federal Regulations* (CFR) 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC's Public Document Room or from the NRC's Agency wide Documents Access Management System (ADAMS), accessible from the NRC's website at <http://www.nrc.gov/reading-rm/adams.html>. However, the enclosure to this letter will not be made available electronically for public inspection because of the security-related information that is contained therein.

The enclosure to this letter contains Sensitive
Unclassified Non-Safeguards Information.
When separated from the enclosure, this
transmittal letter is decontrolled.

M. Jelich
