**SUBJECT: TERMINATION OF YOUR NRC RADIOACTIVE MATERIALS LICENSE
 NO. 24-32358-01, SGOH ACQUISITIONS, INC d/b/a OZARKS COMMUNITY
 HOSPITAL**

Dear Ms. Siska:

By amendment request dated February 28, 2018, you requested to terminate your U.S. Nuclear Regulatory Commission (NRC) Radioactive Materials License No. 24-32358-01. Your request is available electronically from the NRC's Agencywide Documents Access and Management System (ADAMS) at Accession No. ML18065A462.

With your request to terminate License No. 24-32358-01, you provided information regarding the history of use, close-out survey results, and waste disposal documentation for the location of use at 2828 North National Avenue, Springfield, Missouri. You also confirmed that all residual licensed material used at this location had been removed – such that any remaining residual radioactivity is within the limits of Title 10 of the *Code of Federal Regulations* (CFR) Part 20, Subpart E.

Based on its review of close-out survey information, the staff has concluded that all licensable radioactive material has been removed from the location of use and residual radioactive material attributable to licensed activities does not exceed current NRC criteria. Therefore, the location of use at 2828 North National Avenue, Springfield, Missouri is suitable for unrestricted use and NRC license No. 24-32358-01 is hereby terminated.

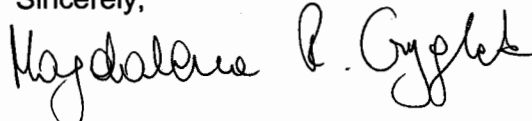

K. Siska
