RICHMOND, VIRGINIA 23261

November 6, 1979

Mr. James W. Stalling, Director
Office of Inspection and Enforcement
U. S. Nuclear Regulatory Commission
P.O. Box 117
111 Constitution Avenue, N.W.
Washington, D.C. 20540

Serial No. 174
Date: 11/6/79
Request No. 50-021
License No. 100-32

Dear Mr. Stalling:

Reference is made to your letter dated 10/11/79 regarding the Virginia Electric and Power Company's proposed changes to the design of the Westinghouse steam generator.

Enclosed for you are two copies of the technical specifications, U.S. NRC Form 70-1/101-1, dated 10/11/79.

This report has been reviewed by the Atomic Nuclear Safety and Control Commission and will be placed on the agenda for the next meeting of the Atomic Nuclear Safety and Control Commission.

Very truly yours,

L. M. Stallings

L. M. Stallings
Vice President-Inner Supply
and Production Operations
