Dear FOIA Officer:

Pursuant to the Freedom of Information Act (FOIA) I am requesting the following documents:

SRDB 29584 (related to Dow Chemical) [A 1959 letter from Dow to the AEC regarding ventilation for Mg-Th welding.]

ORDER: DECREASING COST TO AGENCY AND MYSELF

For those responsive records that currently exist in electronic format (such as email, Word, or PDF files) please provide those documents in such native format by copying the files onto a CDR or DVD. For those documents which exist only in paper form, please scan those documents into PDF files and copy those files onto a CDR or DVD. Where paper copies of records are available in electronic form contain handwritten marks or notes, please provide both the native electronic record as well as a copy of the paper record including metadata. This request specifically includes – and you are specifically directed to obtain, preserve in native format and produce – any

records that exist on personal computers, portable phones, Blackberries, or other devices, or in personal email, data, voice mail or text mail accounts owned or controlled by any officer, employee or agent of the federal government in searchable native format including metadata.

For each record that you contend is exempt from the FOIA, please specifically identify the record by subject, title, author, custodian and date, and specifically state how the specific statutory exemption applies to the record being exempted. For each record that is only partially exempt from disclosure, please provide a redacted copy of that record.

WAIVER, REQUESTED

Because these documents will be used for noncommercial purposes, I am seeking a full "waiver" of all fees associated with any of the request made herein. My work on behalf of the Energy Employees Occupational Illness Compensation Program claimants is entirely a pro bono effort and I am in no way being compensated financially for this advocacy effort. I do not have any economic interest in this FOIA request nor in any of the documentation that I am requesting under this FOIA request. Furthermore, this documentation that will be used on behalf of the nuclear weapons workers will also be made available to the general public as well as other former nuclear weapons workers and their advocates across the country that are similarly seeking compensation and seeking to inform the public about the people who worked at the Department of Energy's facilities. Additionally, this letter advises that CDC will waive all fees for "all requesters who act as advocates for former nuclear workers." http://eecap.org/PDF_Files/EECAP/FOIA/2012_July_13_NIOSH-Blanket_Waiver.pdf

Please forward the documents requested under this FOIA to (b)(6) Please advise me immediately of the FOIA tracking number by notifying me at the email address.
