**Subject:** [External\_Sender] RE: C-300 gauges radioisotope clarification

On the DOWL license page 2 of 4, Section 9 it lists D as Seaman C 200 and E as Seaman 300.

On the DOWL License page 1 of 4, Section 6, it list D and E as both Radioum-226: Be.

That's what I was referring to. Did I mess up?

Maria

**Subject:** C-300 gauges radioisotope clarification  
**Importance:** High

Good Morning Maria:

Please clarify the radioisotope for the C-300 gauge. In your original new license application dated February 7, 2018, you state Ra-226/Be; however, the current Dowl, LLC dba Dowl HKM license lists Am-241/Be.

Please explain this discrepancy.

Thank you!

Jackie
