SUBJECT: REQUEST FOR ADDITIONAL INFORMATION REGARDING TENNESSEE VALLEY AUTHORITY'S DECOMMISSIONING FUNDING PLAN UPDATE FOR BROWNS FERRY AND SEQUOYAH INDEPENDENT SPENT FUEL STORAGE INSTALLATIONS

Dear Mr. Schrull:

By letter dated December 17, 2015, Tennessee Valley Authority (TVA) submitted, for U.S. Nuclear Regulatory Commission (NRC) staff review and approval, a decommissioning funding plan update (DFP update) for the independent spent fuel storage installation at Browns Ferry and Sequoyah (Agencywide Documents Access and Management System Accession No. ML15352A046). The NRC staff reviewed TVA's DFP update and believes TVA's submittal was not sufficient to meet the intent of the requirement in Title 10 of the *Code of Federal Regulations* (10 CFR) 72.30(c). Specifically, the DFP updates do not provide sufficient information to allow the NRC to determine that the events listed in 10 CFR 72.30(c)(1)-(4) have been considered.

The NRC staff need the information identified in the enclosure to this letter. We request that you provide this information within forty-five (45) working day of the date of this letter. Inform us at your earliest convenience, but no later than 2 weeks prior to the due date, if you are not able to provide the information by that date. To assist us in re-scheduling your review, you should include a new proposed submittal date and the reasons for the delay. Discussion of the request for additional information (RAI) and RAI response date occurred on May 14, 2018.

E. Schrull
