Executive Vice President-Power  
P.O. Box 26666

Gentlemen:

We have received a copy of your application dated May 16, 1980, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. The application (Proposed Change 86) relates to clarification of the term "operable" for Surry 1 and 2. Your request was accompanied by Class II and Class I amendment fees of \$1,200 and \$400, respectively.

Based on information provided by the ONRR staff as a result of a preliminary review of the above application, it has been determined that this application involves consideration of a single safety issue and, therefore, Class III and Class I fees are applicable. It is requested that your Company remit an additional sum of \$2,800 to this office. If in the final review of your application by the ONRR staff it is determined that these fees are incorrect, an adjustment will be made.

Sincerely,

*RS*
