Gentlemen:

This refers to the inspection conducted by T. D. Lee of this office on October 20-23, 1980, of activities authorized by NRC Operating License Nos. DPR-32 and DPR-37 at the Surry Power Station and to the discussions of our findings held with C. P. Sanger and J. L. Wilson at the conclusion of the inspection.

Areas examined during this inspection included your program for nuclear material control and accountability under the applicable provisions of Title 10, Code of Federal Regulations, Part 70, "Special Nuclear Material," and specific license conditions. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, performance tests, and observations by the inspectors.

Within the scope of this inspection, no items of noncompliance were disclosed.

In accordance with Section 2.790(d) of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room. If this report contains any information that you (or your contractor) believe to be proprietary, it is necessary that you make a written application within 20 days to this office to withhold such information from public disclosure. Any such application must include a full statement of the reasons on the basis of which it is claimed that the information is proprietary, and should be prepared so that proprietary information identified in the application is contained in a separate part of the document. If we do not hear from you in this regard within the specified period, the report will be placed in the Public Document Room.

Should you have any questions concerning this letter, we will be glad to discuss them with you.

Sincerely,

*J. B. Kenna*  
J. B. Kenna, Chief
